| ➤ Agile Methodologies | ➤ Software Quality Assurance (QA) | ➤ Debugging |

Soft Skills: Effective Communication | Team Collaboration | Problem-Solving | Detail-Oriented | Adaptability

EDUCATION AND CERTIFICATIONS

Bachelor of Computer Science, Minor in Economics
University of Waterloo, Waterloo, ON

Sep 2018 – Oct 2023

Codecademy: [JavaScript](#) | [React](#) | [HTML](#) | [CSS](#) | [Bootstrap](#)

PROFESSIONAL EXPERIENCE

Frontend Software Developer | RoyalTech Electrical

Jun 2024 – Present

- Designing a comprehensive e-commerce website for RoyalTech Electrical using JavaScript, React, HTML, and CSS. Aim to establish a robust online presence, streamline the ordering process, and boost customer retention.
- Developing features that enable customers to place online orders easily and securely, contributing to increased sales.
- Working closely with the sales team to align the website with business goals and ensure a cohesive online presence.

Software Developer | D2L, Kitchener, ON

Sep 2022 – Dec 2022

- Implemented substantial enhancements to essential user interface (UI) elements and libraries within Brightspace, D2L's flagship product, thereby enhancing user experience for a client base of over 1,300 international organizations.
- Collaborated with cross-functional teams to deliver pivotal UI components using JavaScript frameworks, HTML, and Bootstrap, crucial for the evolution of diverse Brightspace user interfaces, ultimately reaching millions of users worldwide.
- Enhanced the usability and accessibility of Brightspace through strategic and impactful UI development initiatives.
- Optimized Brightspace's UI, significantly enhancing user experience and contributing to its widespread adoption.

Software Engineering Consulting | Capco, Toronto, ON

Jan 2022 – Apr 2022

- Leveraged cutting-edge technologies to overhaul BMO Harris Bank's online banking app, ensuring alignment with industry.
- Seamlessly upgraded the codebase from Angular 5 to 13 and Ionic 3 to 5, ensuring the application remained technologically advanced and future-proof, resulting in a performance increase of about 65%.
- Worked closely with the QA team to identify and rectify post-upgrade bugs, ensuring the stability and reliability of the application through rigorous testing and maintenance of a robust unit test suite.

Software Developer | Marsh McLennan, Toronto, ON

May 2021 – Aug 2021

- Overhauled the corporate information systems portal using React and Ionic for frontend development, seamlessly integrating SQL, MongoDB, and Docker on the backend, optimizing company-wide finance and training operations.
- Implemented and managed an Automated Regression Test Suite with CodeceptJS Testing, leveraging Playwright as the framework, enabling seamless continuous integration and deployment processes, thus reducing testing time by 40%.

IT Support & Quality Assurance | Pillar To Post, Toronto, ON

Sep 2020 – Dec 2020

- Addressed operational challenges for home inspectors, performed comprehensive manual testing, and collaborated with developers to ensure smooth deployment of new application versions, enhancing software reliability and effectiveness.

QA Automation Developer | Dye & Durham, Toronto, ON

Jan 2020 – Apr 2020

- Enhanced Econveyance's document management software for law firms by developing automated testing scripts with Nightwatch.js, identifying and reporting software issues, and ensuring robust performance and user satisfaction.

PROJECT

Monopoly

Jul 2020 – Aug 2020

- Crafted and coded the classic game Monopoly, demonstrating proficiency in Object-Oriented Software Development. Applied core Object-Oriented Programming concepts in C++, illustrating mastery in integrating fundamental principles into practical applications.
